MESSAGE FROM THE PRESIDENT FOR 2014

Looking back over “The Year That Was”, it’s plain to see that Omemees has a healthy and vibrant Horticultural Society!

In December 2012 following the Induction of the 2013 Board of the ODHS, we entered a prize winning float in the Omemees Santa Claus Parade under the creative leadership of Gaynor McMullen. For the sixth year we organized the Judged Flower Show at the Peterborough Garden Show under the capable leadership of Donna Hunter.

Several Omemees delegates attended the various OHA and District 4 scheduled events, the “March Get Together”, the “April AGM in Port Hope”, the “June Celebration Event” in Peterborough, the OHA Convention in Thunder Bay, the District 4 Archival Workshop and the Fall Seminar in Colborne. Some members also attended many other Garden related Tours and went on Bus trips and shopping events.

A wonderful meeting and field trip was arranged to visit “Green House on the River Garden Centre” where Elyn and Peter Green were celebrating 25 years in business. On a beautiful July evening we toured lovely gardens in the Omemees area arranged by Sue Lajeunesse. Other daytrips were arranged to Minden Flower Show, John Stratham’s Nursery and places in the Uxbridge area.

Our Annual May Plant fundraising Plant Sale at the Curling rink was successful with quality plants which were well presented and affordably priced quickly snatched up by the yearly bargain hunters.

The Junior Garden Club met 3 times May, August and October. There were 27 children registered, 16 girls and 11 boys. It was a better growing season and the entries at the August show were evident.

Our main project for 2013 was to renovate the Fire Hall and Marina Beds. Once again under the leadership of Joanne Windrem, MG and Aron Muscutt, Horticulturalist the Fire Hall Bed was completely renovated. The Beach Garden bed had a mini restoration with the raising of the stone marker with the historical plaque marking the spot of three former schools. The Marina bed was postponed due to the village sewer construction around it. A mini renovation was also done at the LCBO bed removing some of the invasive ground cover. A black Iron Obelisk with Maple leaves is to be installed in the centre of the LCBO bed in the next few weeks. We are very grateful to Joanne and Aron for their continued leadership which inspires us to work in the village gardens.

Our OHA web site www.omemeeblooms.ca won second prize from the judge at OHA the Convention.

As our Omemees Horticultural Society turns 75 years old, we can rejoice that we have a thriving society of 99 dynamic members, many of whom willingly give untold volunteer hours creating and maintaining so many beautiful places in our village. Thank you all.

General Rules For the Exhibitors

Competition is open to all members of the Omeme Horticultural Society (over 16 years of age) *Membership paid prior to date of show.*

1. Entries with tags must be in place and showroom cleared by the specified time in show schedule. Entry tags may be obtained prior to the show. See Christa Marton
2. An exhibitor may make only *one entry* in each class unless the item is marked with an * in which case, two entries are allowed.
3. A houseplant may be shown only *once* each year. All potted plants must be owned by the exhibitor for at least 3 months.
4. All specimens must be grown by the exhibitor (does not apply to decorative/design classes)
5. In decorative/design classes accessories are permitted unless otherwise stated.
6. All specimen entries must be shown with their own foliage, except daffodils & daylilies.
7. Extra points may be given for naming specimen varieties.
8. Height refers to the average height of the specimen, not height of the entry.
9. Decorative entries' height is measured from tabletop to the design's highest point. Note that the container is part of the measurement.
10. In decorative classes, a front view is indicated unless otherwise stated.
11. Judging will conform to OJES standard (Ontario Judging & Exhibiting Standards).
12. The judge's decision is final and may only be challenged in writing.

TIPS FOR CONDITIONING FLOWERS

The goal is to assist plants to absorb water after cutting and thus have fresher, longer lasting specimens or arrangements.

Cut stems cleanly on a slant using a sharp, clean knife or shears. Early morning or late evening is preferred. Place immediately in deep warm water. Re-cut stems under water about an inch above the original cut. Flowers with woody stems such as hollyhocks, lilacs and shrub and tree branches should not be re-cut. Instead, slit the stems a few times.

Some flowers benefit from a spray of cool water before hardening. Some of these are Asters, Begonias, Lilacs, Carnations, Pansies, Violets and Roses. Do not spray Delphiniums, Lilies, Petunias, or Sweet Peas.

Strip off the leaves that will be under water. Lay large leaves, such as Hostas, flat in the water.

The stem ends of some plants should be seared or placed in an inch of boiling water for 1 to 3 minutes. This prevents the formation of a callus which restricts water intake. Plants that fall into this category are Poppies, Asters, Chrysanthemums, Zinnias, Dahlias, Sidalcea, Balloon Flower and Heuchera.

Condition Daffodils (Narcissus) separately, do not re-cut stem and rinse stem ends to remove sap if being used in any arrangement with other flowers.

Store pails of flowers in a cool dark and draft free area from 6 to 24 hours. Dahlias, Gladioli and Iris can be cut a few days ahead if hot or stormy weather threatens.

Tips for Showing

If more than one flower is shown of the same variety, equal sizes and stages of development are considered to be superior entries.

Floating specimens should not have leaves and should truly float.

It is advisable to put the flower into the bowl at the show, not while in transit.

Always groom your specimen, removing all "eye-sores": spent flowers, dirt, bugs etc.

Tulips

- erect stems (except for parrot tulips)
 - no more than 2 sets of leaves
 - single tulips $\frac{1}{4}$ - $\frac{1}{2}$ open, species (small) fully open
- Note: species close at night so might not show well.

Roses

- petals symmetrical, fresh
- singles fully open, other $\frac{1}{2}$ to $\frac{3}{4}$ open

Iris

- symmetrical form, sturdy stems
- the presence of terminal flower (the one on the top) is considered superior
- old flowers neatly trimmed off at the stem

Peonies

- singles should not have pollen falling
- all buds should be removed, as well as all lower leaves.

African Violets

- plant should be in centre of container, foliage symmetrical & overlapping -no long "necks"
- flowers concentrated near centre of plant
- miniature has leaf span 6" or less

Daffodils/Narcissi

- Foliage should not be included
- The beige sheath under the bloom (the spathe) should not be removed.
- Petals (the perianth) should generally be broad & flat with overlapping segments symmetrically arranged & not twisted.
- flower shows best at right angle to stem, except multi-blooms.
